Gap analysis for step up in standards for Ex-equipment

It has been performed gap analysis concerning the step up from EN 50014:1997+A1:1999 + A2: 1999 to EN 60079-0:12 and EN 50020:2002 to EN 60079-11:12.

Certificates and documentation as well as the mechanical and electrical properties for product AK6612 under certificate no. 05ATEX1235X are checked and found in compliance with the new standard without any need for modifications.
