KEY MESSAGING - USE CASES

Boost Efficiency - With Tracking & Loss Prevention

The perfect savior for large radio and rental fleets to support and optimise the radio solution experience. Keep track of radios out in the field and on return by quickly and effectively scanning multiple devices at once. No longer will label barcodes risk peeling off and effecting your customers operation. Now you can be assured your radio fleet is uncompromised.

Save Operational Time - With Assigned Check-In and Check-Out

Reduce operational downtime and employee awareness with an inventory tracking solution. Keep tabs on who has what with the ability to assign an R7 radio to an individual. Check-out an R7 from the inventory pool at the start of an employee shift, accompanying with their employee badge. Re-scan to check-in once their shift has ended.

Enhance Safety - With Patrol & Access Control

Increase safety, security and patrol efficiency with a simple and user-friendly solution to manage security personnel. Simply hold an R7 against the checkpoint along the intended patrol route and transmit the status quickly to a centralised unit.
