

Critical situations.

Essential communications.

Reliability means everything.

OTTO Helmet Communication Kits get  
the job done—anytime, anywhere.

Precision engineering and proven reliability make OTTO Helmet Communication Kits the dependable choice of Law Enforcement professionals. Two top-quality in-helmet speakers are easy to install. All kit components are designed for durable performance in high-noise situations, and comfort for long-term wear.

**Both the Full Face Helmet Kit and the Open Face Helmet Kit feature:**

- Adjustable remote Push-To-Talk that can be worn on the hand, attached to a riot shield, or to a motorcycle handle bar
- Modular design for optimal configuration
- Quick disconnects and cord-coil at key points for maximum comfort
- Velcro® pads for easy installation of speakers, boom mics, and in-helmet mics
