One Wire Earphone Kit

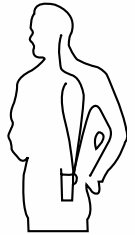

(Receive only, for use with portable radios.)

Two Wire Earphone Kit

Three Wire Earphone Kit

Ideal for security at airports, casinos, manufacturing plants, crowd control at conventions and concerts, and other environments requiring discreet communications.

The **One, Two and Three Wire Earphone Kits** deliver high clarity audio and feature lightweight earphones, rubber ear tips, radio connectors and clothing clips. Flexible, high grade cables provide durability in situations from routine to demanding, and the Two and Three Wire Earphone kits deliver two-way radio transmissions that go unnoticed by others.

Mechanical Specifications:

One Wire Kit:

- Cable pull at connector end, axial: 30 lbs

Two Wire Kit:

- Cable pull at earphone, axial: 10 lbs
- Microphone/switch assembly pull, axial: 10 lbs
- Microphone/switch operating force: 1.5 – 2.0 lbs

Three Wire Kit:

- Cable pull from plug end, axial: 20 lbs
- Cable pull from PTT end, axial: 10 lbs
- Cable pull from earphone end, axial: 10 lbs

Environmental Specifications:

One, Two and Three Wire Kits:

- Operating temperature: -30° C to +75° C
- Storage temperature: -40° C to +85° C

Modular **surveillance kit earphone accessories** provide even more flexibility for users in multiple shifts sharing equipment or for those who need options when moving from a high noise to a low noise environment.
